

# Organization of the Off-Grid program Lao PDR

Anousak PHONGSAVATH,  
Off-Grid Project Manager  
Deputy Chief, Rural Electricity Division, MIH  
E-Mail: [anousak\\_pv@yahoo.com](mailto:anousak_pv@yahoo.com); [Solarred@laotel.com](mailto:Solarred@laotel.com)

1

## Status of the program - PV

Over 5,300 families with  
solar home systems

2

## Status: Village Hydro

115 families with supply  
from village hydro systems

3

## Status: Gen-sets

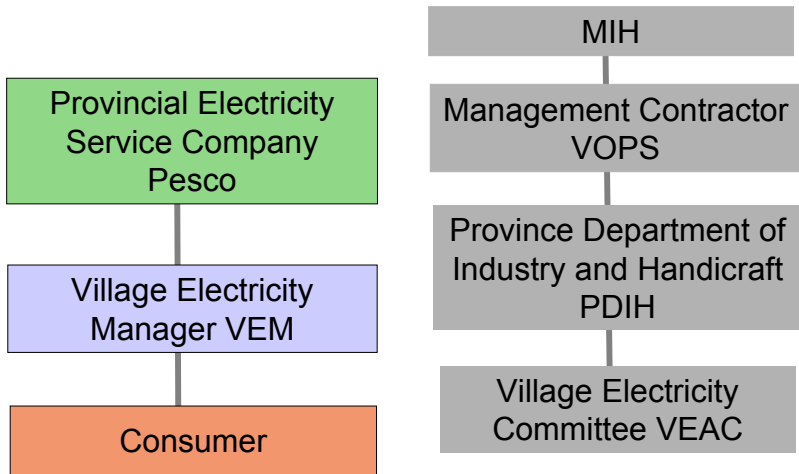

94 families with supply  
from gen-set system

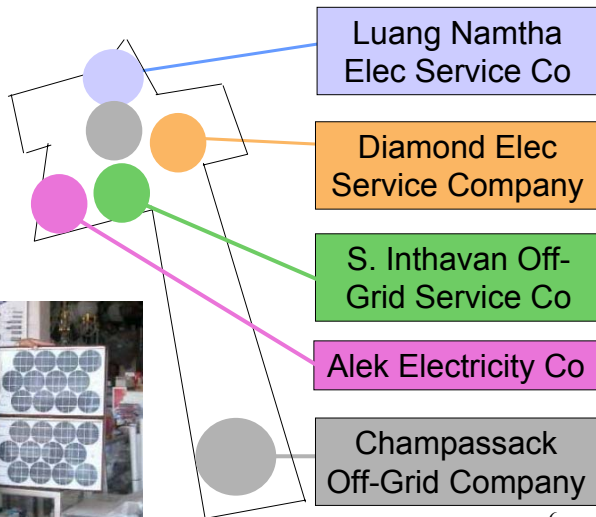

4

# Public-Private partnership

5

# Five Provincial Electricity Service Companies are registered and active

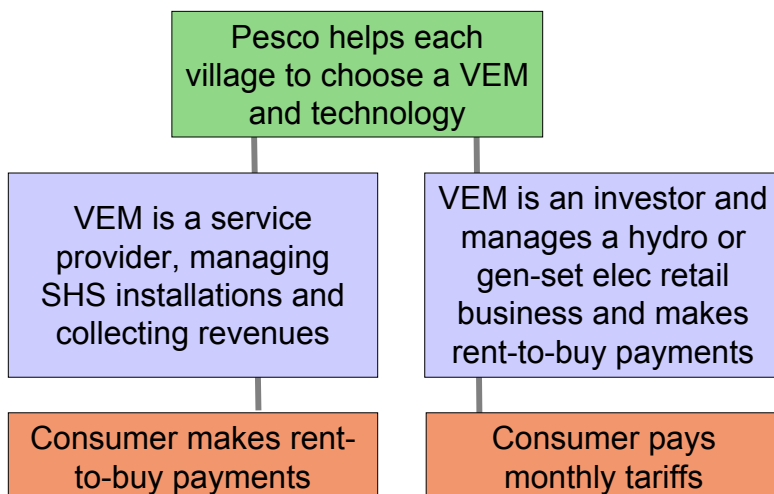

6

## About 130 Village electricity managers are registered and active

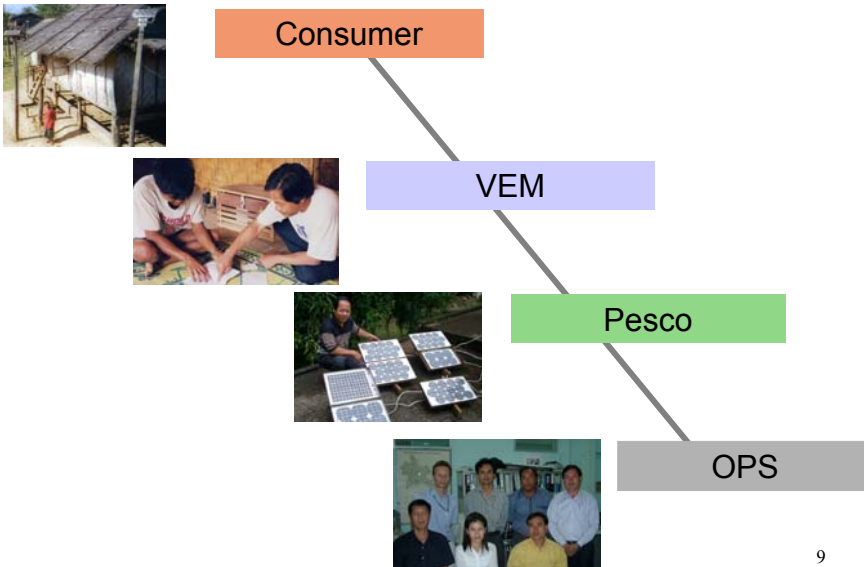

7

## Delivery system: “Rent-to-buy”

8

# Maintenance support chain

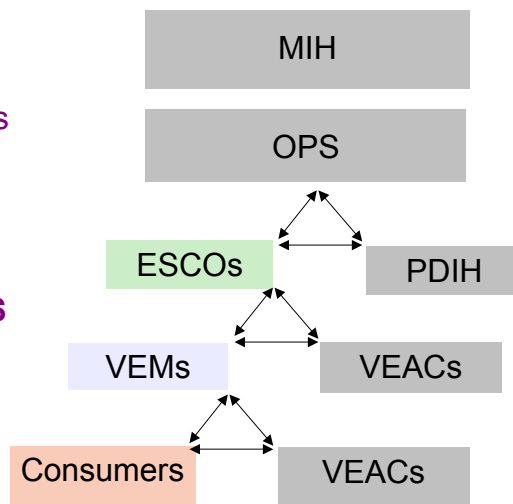

9

# Contractual structure under SPRE 1

Contracts require PDIH and VEACs to act as mediators and regulators. MIH oversees the program.

**A key role of OPS office has been contracting and evaluating Pescos. Pescos do the same for VEMs.**

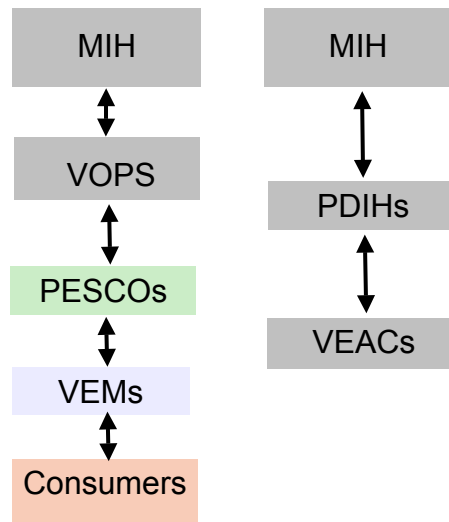

10

## Contractual structure under SPRE 2

The Village Off-Grid Promotion and Support contractor has full responsibility for engaging, evaluating and dis-engaging Pescos

**MIH secures agreements from Provincial offices that they support VOPS in this role.**
